Member

ABOUT ME

Motivated IT student at the University of Eastern Finland with practical experience in web development, IT support, and network systems. Proven ability to build and deploy real-world applications from scratch, including a full-stack digital agency platform and a live ERC-20 blockchain token. Strong problem-solving skills with a quick ability to adapt to new technologies.

EXPERIENCE

IT Developer

DEVSiNC (Remote) | Jul 2025 – Apr 2026

- Managed and updated company websites, ensuring functionality and content accuracy
- Assisted in developing customer-required websites based on specifications
- Worked on multiple web projects supporting design, updates and maintenance
- Collaborated with team members using development tools and version control

Network System Specialist (Intern)

Hameed Latif Hospital, Lahore, Pakistan | Mar 2025 – Jul 2025

- Assisted in IT and network system setup and maintenance
- Provided technical support to hospital staff and doctors
- Helped manage patient record systems and troubleshoot issues
- Monitored system performance; performed hardware/software installation

Executive Committee Member

Chanan Development Association (CDA), Lahore | Sep 2021 – Aug 2025

- Maintained and organised NGO records, reports and documentation
- Coordinated planning, communication and execution of development initiatives
- Worked with stakeholders to track progress and outcomes of programs

Truck Dispatcher

Pioneer Enterprises, Remote, United States | Apr 2023 – Feb 2025

- Managed dispatch operations using DAT Load Board and RingCentral
- Updated digital records, load statuses and documentation accurately
- Resolved operational issues efficiently using digital tools

Data Entry Specialist

Onestop Grocery Store, Lahore, Pakistan | Mar 2022 – Jan 2023

- Managed sales and inventory data using the IPOS system with high accuracy
- Maintained daily and monthly reports supporting store operations

PROJECTS

NORDASH — Digital Agency Platform

nordash.vercel.app

- Full-stack Next.js 16 + React 19 digital agency platform with MongoDB backend
- Built CRM dashboard, job application system, portfolio gallery and lead management
- Deployed to Vercel with auto-deploy; includes authentication and email integration
- Tech: React 19, Next.js 16, TailwindCSS, MongoDB Atlas, Resend, Framer Motion
